

Unique XI

The UNIQUE XI barrel table was individually tailored to the customer's wishes and requirements. During development, the focus was on the tools and machines to be used. A grinding machine for processing the engraving tools was integrated directly into the table.

Product information

Product category	Barrel tables
-------------------------	---------------

Features

Height adjustment	Electric
Width	1,400 mm
Depth	760 mm
Height	800 - 1,200 mm
