

MODULAR II

With the MODULAR II for goldsmiths and jewelers, you can design your workplace according to your ideas. The design, workmanship and equipment are all of the highest standard. Set-ups in formations enable completely creative solutions for group workstations.

The sophisticated design of the robust four-legged steel frame with an open side view is perfect for versatile use. Four internal hydraulic cylinders, each with a lifting capacity of 150 kg, telescopically extend the inner steel frame upwards. The drawer containers connected to the top panel are lifted at the same time.

Product information

Product category Goldsmith tables

Features

Height	900 - 1,200 mm
Armrests	5D Armrest
Table frame	Four-legged steel frame with open side view

Options

Body	anthracite light gray white Beech decor Special request
