

## UNIQUE II

The watchmaker's table model "UNIQUE II" stands for futuristic design and technical sophistication at the highest level. This electrically height-adjustable watchmaker's table offers a number of outstanding features.

Masterful workmanship and the highest quality materials are just the foundation on which this table is built.

For example, the exclusive installation of an electric armrest module enables maximum ergonomic work efficiency. In accordance with specific customer requirements, two barcode scanners were integrated under the worktop as a further highlight, which are covered with a flush-mounted glass surface.
